

The Diploma of Vocational Education (DVE) Programmes, which are accredited locally, adopt a credit-based system with a flexible curriculum. They provide school leavers from Secondary 3 to Secondary 5 with a valued pathway for continued studies and career development.

Students can choose from an array of specialisations to suit their own interests and needs. The DVE programmes offer two levels of awards, Certificate of Vocational Education (CVE) and Diploma of Vocational Education (DVE). It normally takes three years for a school leaver from Secondary 3 to Secondary 5 to acquire the DVE award.

Diverse Choices for Different Interests and Needs

Programmes are designed to cope with development of a wide variety of growth industries, such as beauty care and hairdressing, electrical and mechanical services, automobile, business, fashion, jewellery, watch and clock, print media and hotel industries.

To better equip students' technical skills in different industries, the medium of instruction and assessments for some modules is in Chinese.

Flexible Curriculum for Education and Employment

The programmes are designed with dual objectives, preparing students for further studies as well as employment. Holders of Diploma of Vocational Education (DVE) are considered having met the general entrance requirements of Higher Diploma programmes (not applicable to programmes with specific entrance requirements). DVE students may also consider taking the optional module "Mathematics 3E: Mathematics for Further Studies" for the eligibility to apply for VTC's Higher Diploma Programmes which require Level 2 or above in HKDSE Mathematics as one of their general entry requirements.

Holders of the DVE award may choose to seek employment. Some graduates may pursue further part-time studies while employed. Some students can join the VTC Earn & Learn Scheme, and receive on-the-job training while earning a stable income and allowances.

Well Recognised Qualifications

The curriculum is designed with reference to market's needs and the General Descriptors of the Hong Kong Qualifications Framework, providing recognised qualifications for both employment and further studies. Some of the CVE qualifications are recognised by relevant government departments as meeting the academic requirements for license registration.

A Balanced Curriculum for All-round Development

To help students build a solid foundation for further study and employment, in addition to strong vocational elements, the curriculum also comprises modules for developing generic competence in areas such as Chinese, English, Mathematics, Putonghua, information technology and whole-person development.

My Story

石嘉勇
SHEK Ka Yung

職專文憑（資訊科技）
Graduate of DVE (Information Technology)

手機軟件開發高級文憑
HD in Mobile Application Development

我在青年學院有一個愉快的學習歷程。學院的教師充滿熱誠，悉心締造一個關愛的學習環境，引領我尋找合適的升學方向，為將來作好準備。畢業後，我入讀了手機軟件開發高級文憑課程。現在，我在一間政府合約公司任職 Java 程式員，並把從青年學院學到的知識運用於 Java 程式開發工作中。

I enjoyed the happy learning experience in Youth College. The teachers were dedicated to creating a caring, supportive and encouraging learning environment. They helped me to identify my learning goals and build a solid foundation for future development. After graduation, I articulated to the Higher Diploma in Mobile Application Development programme. Working as a Java application programmer for a government contractor, I can apply what I learned in Youth College to my job related to java application.

Graduate of DVE (Information Technology)^

創意媒體及娛樂科藝高級文憑
HD in Creative Media and Entertainment Technology

西英格蘭大學數碼媒體（榮譽）理學士
BSc (Hons) Digital Media, University of the West of England, Bristol, UK

我完成中學後入讀了中專教育文憑（資訊科技）課程，以此打好相關知識基礎，為將來升學及就業作好準備。我從小對電腦資訊有很大興趣，令我學習時事半功倍，我在 30 多個電腦相關科目中都取得優異成績，更順利銜接到創意媒體及娛樂科藝高級文憑。及後我取得數碼媒體（榮譽）理學士學位，現在製作公司擔任執行董事。

Upon completion of secondary education, I was enrolled in the DVE(Information Technology) programme for building a foundation for my further study and employment. I have always been interested in computer and information technology and that helped me to enhance my learning and performance. I achieved excellent results in more than 30 computer-related subjects. Upon graduation, I articulated to the Higher Diploma in Creative Media and Entertainment Technology programme and later I obtained a bachelor's degree. I am now a managing director of a production company.
